And I'll sing of you 'til it hurts
Until it's just more notes and more words

It's a shot in the dark
Resurrection of a tattered heart
So let it take all night
Send me a phoenix to show me the light

And I'll sing of you 'til it hurts
Until it's just more notes and more words

Dry blood on these strings
Notebook full of needles and pins
And as I sing this refrain
The thought of you no longer drives me insane

And I'll sing of you 'til it hurts
Until it's just more notes and more words
I'll sing of you 'til it hurts
Until it's just more notes and more words
I'll sing of you 'til it hurts
Until it's just more notes and more words

Though it still makes me cry
Just one last time as I say goodbye
A way to cope with the facts
To watch it burn, turn red into black

I'll sing of you 'til it hurts
Until it's just more notes and more words
