"Fundamentals"

Visit "[Fundamentals](#)" on MotoLyrics.com

I think too much, don't let me think
Let's sit and have another drink
Don't sing to me, I can sing myself
I sound as perfect as you smell

And let's not change the fundamentals
I know you like it most when men go mental
I don't even care to understand why it turns you on
Let's just stick to fundamentals
I'll have another shot and I'll go mental
Bring a bit of hope now don't just stand there on your
own

I drink too much, don't let me drink
What is the time now let me think
I fell asleep well after nine
Is this your place or is it mine?

And let's not change the fundamentals
I'll have another shot and i'll go mental
I don't even care to understand why it turns you on
Let's just stick to fundamentals
I know you like it most when men go mental
Bring a bit of hope now don't just stand there on your
own
