"Shinin' In The Dark"

Night is comin' on
Feelin's gettin' stronger every hour
Like [Incomprehensible] in the midnight glow
Slowly gettin' close and next to you in the night

Every touch leaves a mark on me
Like a fire I felt it's dark
When I saw the light in your eyes
Shinin' in the dark

Emotions are so real
Had you got that feelin' like I do in the night
As the daylight burns moonlight has burnt
An eternal sky, I can't hide

Every touch leaves a mark on me
Like a fire I felt it's dark
When I saw the light in your eyes
Shinin' in the dark

We could pretend it was
A dream and just move on
Can we escape the revelation of the dark?

Every touch leaves a mark on me
Like a fire I felt it's dark
When I saw the light in your eyes
Shinin' in the dark

Every touch leaves a mark on me
Like a fire I felt it's dark
When I saw the light in your eyes
Shinin' in the dark
