"Waiting On The Night"

I've been laying 'round
Getting ideas in my head
Thinkin' 'bout slippin' out
Gonna shine in my brand new dress

Boy, you got some style
Ooh, know how to make me smile

To be young and living alive
Free as a bird in the sky
I got nothing but time, oh no

Light is coming on
And the moon is on the rise
Can't be nothing wrong
In feeling so alive

What you wanna do from here?
Ooh, come, whisper in my ear

To be young and living alive
Free as a bird in the sky
I got nothing but time, oh oh

I wake up with sun
Ooh, waiting on the night to come

To be young and living alive
Free as a bird in the sky
Young and living alive
Free as a bird in the sky
I got nothing but time, oh no, oh no
