

Greencards "Who Knows"

Visit "[Who Knows](#)" on MotoLyrics.com

A million miles from where I started
Paths I've traveled along the way
The winds have shared my journey
And carry dreams that I'd chase

I reach up from way down under
'Neath the fear I have inside
Chances are by taking chances
So hold the dice and let it glide

Who knows, who knows
Who knows what tomorrow holds

Melodies of love surround me
Beyond the ways I've come to know
In harmony we'll find the answer
To what lies at the end of it all

Who knows, who knows
Who knows what tomorrow holds

Who knows, who knows
Who knows what tomorrow holds
Who knows, who knows
Who knows what tomorrow holds
