Alone in the mystic castle  
Wind blows through the night  
As I looked, I saw a shadow  
Leads me to the secret garden

Follow me into my realm  
I will show you lust and pain  
Nothing will be like it was  
I drink from you, you live forever

The kiss from a vampire  
The kiss from a vampire  
The kiss from a vampire  
The kiss from the vampire

Then she stands before my eyes  
A vamp in black she looked so good  
And she took me in that night  
Like no other could

Ohh, you're so good to me  
My blood runs out for you  
Eat my flesh and drink from me  
The serpent is in you

The kiss from a vampire  
The kiss from the vampire  
The kiss from the vampire  
The kiss from the vampire

After that I was her slave  
A human body in her force  
She's my princess of the night  
And I died for her

Now you're dead, come follow me  
And I'll return to you  
Forget the past, you're undead now  
My leader, you're my last

The kiss from the vampire  
The kiss from the vampire

The kiss from the vampire  
The kiss from the vampire
