

## Mystic Circle

### "Rock The Night"

Visit "[Rock The Night](#)" on MotoLyrics.com

Somewhere in the world around  
We can hear the metal sound  
We fight with raising swords  
Beside the metal gods  
We create the dragons world  
And let the kingdoms fall  
We are the chosen ones who fight  
Against the beast

We let the legends still alive  
Reborn in flesh and blood  
The name it's rock n' roll  
The law deep in your soul

We rock the night  
We rock your life  
We create the sound  
That's deep in your heart  
We rock your soul  
We rock your world  
Resurrection thoughts  
Between the two worlds

Every night with flames on the stage  
With the glory to the edge  
We bring the metal back  
Deep inside your heart  
In your head and in your soul  
Have a mission you want all  
Feel the vision like a raging hungry firestorm
