Whaaa, wassup nigga?  
This for my niggas in them big trucks  
This for all my niggas in them SUV's, you heard me?  
This for my big truck drivers, look nigga blow yo' big  
truck horn

You still could see me in my big truck boy  
Smilin' like a lil' kid when I sped the corner with my  
brand new toy  
I got a bark in they call, talkin' 'bout  
They wishin' I'd would've came out the garage

But, I guess that's too bad  
'Cause your truck used to be the shit until they saw my  
pad  
Strobe lights flash, solar baric, boom boom  
Big feet ten runnin' while they, vroom vroom

Another SUV can't do nothin' wit' me  
I'm 23's so 22's ain't fuckin' with me  
Car so big it make it hard to turn the wheel  
I can't watch the TV's from the sturrin' wheel

Shit, plush stronger than the buckskin' ceilin'  
Chocolate tan interior really big truck grill  
Yeah, that's how you do that there  
Got bling and bass, everythin' clean but the ash-tray

I'm lookin' at you behind the wheel  
Singin' this song, I'm a big truck driver  
In the big ol' truck, with the big ol' grill  
Rollin' on big ol' chrome, I'm a big truck driver

And you know when you pass  
Those small trucks you doin' them wrong  
This is for my riders big truck drivers  
Even on a bad day everythin' clean but the ash-tray

Dark lights with brights, the dark windows  
With the pistols in the hot spots fuckin' well right  
So when you bitches try to act hype  
I get the gat get the gat 'cause niggas don't fight

When you get to Ruben 2, then make a right at the light  
And you might catch my rims will-millin' 'round night  
light

I played a Jag' 'round rags  
And now excursion and escalade 'round upscale

The Range Rover's don't even get goals  
'Til it's time for rhythm city or either house of blues  
My niggas wit' me at your seat to pick my friends up  
My brother 'Rice in a mother-fucking Benz' truck

Fresh light don't need no buffin'  
Just call a homie where I'm at, west coast custom  
Put it on a trailer and ain't no rushin'  
'Cause when I get it back y'all 'round can't touch it

I'm lookin' at you behind the wheel  
Singin' this song, I'm a big truck driver  
In the big ol' truck, with the big ol' grill  
Rollin' on big ol' chrome, I'm a big truck driver

And you know when you pass  
Those small trucks you doin' them wrong  
This is for my riders big truck drivers  
Even on a bad day everythin' clean but the ash-tray

Ain't no slack in my Mack, rollin' slow the windows down  
They recognize me so you know how they act  
Cuttin' up, fallin' out, tryin' to flirt and get nasty  
Raisin' shirt, showin' titties, talkin' 'bout autohgraphs

I try my best to keep my fans happy  
I sign my name I grab the nipple they pull off and start  
laughin'  
Then it's back through the hood, tryin' to find somethin'  
good  
And after that I'm on my way back to good

I knew that I'm on course at all time  
And I love grindin' like alcoholics love sweet creamy  
and wine  
2002 and you dodgin' me now  
Big truck gonna come up ain't no holdin' us down

Grab eyes, turn heads, stop traffic  
My black big truck half match my big truck jacket  
Do shows and get paid when I travel stay busy it be  
gone  
Now this a big truck driver

I'm lookin' at you behind the wheel  
Singin' this song, I'm a big truck driver  
In the big ol' truck, with the big ol' grill  
Rollin' on big ol' chrome, I'm a big truck driver

And you know when you pass  
Those small trucks you doin' them wrong  
This is for my riders big truck drivers  
Even on a bad day everythin' clean but the ash-tray

I'm lookin' at you behind the wheel  
Singin' this song, I'm a big truck driver  
In the big ol' truck, with the big ol' grill  
Rollin' on big ol' chrome, I'm a big truck driver

And you know when you pass  
Those small trucks you doin' them wrong  
This is for my riders big truck drivers  
Even on a bad day everythin' clean but the ash-tray

I'm a big truck driver, I'm a big truck driver  
This is for my riders big truck drivers  
Even on a bad day everythin' clean but the ash-tray
