Here I Go

Here I go move along with no delay
Pray to god that this just may be the day
that I move away from this small town
to climb the Hollywood hills and rocks just to shout

To climb the Hollywood hills and rocks just to shout
To climb the Hollywood hills and rocks just to shout

Here I Go

Oh, Oh. I'm on my chariot
The golden fame is put to shame
Other people cannot carry it
across the world they will know my name
Here I Go

Boy you had it so good, so good, so good, so good.
Boy you had it so good, so good, so good, so good.
Boy you had it so good, so good, so good, so good.
Boy you had it so good, so good, so good, so good.

Here I Go

Here I go move along with no delay
Pray to god that this just may be the day
that I move away from this small town
to climb the Hollywood hills and rocks just to shout
