Trying to realize what's going on in your mind
'n' if the reflection will show something I don't want to
find
This is the moment the time this is what I'm going to do
I'm going to find a solution and get just over you

You're telling lies, you're telling lies
You're the devil in disguise (2x)

Why you leaving me tonight
You said we'd always be together
We made promises for life
Now you say nothing lasts forever (2x)

Nothing, nothing, nothing lasts forever (2x)

This is the time in my life when I will do what is right
Not gonna waste my emotions no point picking a fight
What you're demanding from me ain't gonna happen
for sure
No no not in this lifetime never no more

You're telling lies, you're telling lies
You're the devil in disguise (2x)

Why you leaving me tonight
You said we'd always be together
We made promises for life
Now you say nothing lasts forever (2x)

Nothing, nothing, nothing lasts forever (2x)

Why you leaving me tonight
You said we'd always be together
We made promises for life
Now you say nothing lasts forever (2x)

Nothing, nothing, nothing lasts forever (2x)
