Mmmm, ohh, ohh, ohh.

We're too far; I'm too far away from you.
Jet planes and hotels no substitute.
Wish I could run home right back to your love.

Gurrl, I left you, saying you ain't for me.
And that's why I know you're still right for me.
But right now baby I am just too far away.

Oh baby, I'm tryna figure girl, wanna be with chu girl.
And now I'm feeling like I'm living in another world.
So many people but all I really want is you.
Nothing I can do, because I'm miles away from you.

And every song I'm singing, know I've got you on my
mind.
And you're the last thing in my head before I sleep at
night.
I'm too far from where you are, we're too far, we're too
far away.
Too far away, too far away, far away-ay.

Four more days until I am home again.
But one week until I'm in the sky again.
It gets hard to know I'll never be home to stay.

I love what I do; it's a blessing in every way.
And I'm thankful for all I'm given every day.
But without you I can help but feel left not to say.

Oh girl, I'm tryna figure girl, wanna be with chu girl.
And now I'm feeling like I'm living in another world.
So many people but all I really want is you.
Nothing I can do, because I'm miles away from you.

And every song I'm singing, know I've got you on my
mind.
And you're the last thing in my head before I sleep at
night.
I'm too far from where you are, we're too far, we're too
far away.

Too far away, too far away, far away-ay.

Baby, missing you is driving me crazy.
I wish I could have you here with me, but I know it can't
be.
Hold on, I'll be home soon but I know I won't be home
for long.
Girl stay with me, wish you were here with me, yeah..

I'm tryna figure girl, wanna be with chu girl.
And now I'm feeling like I'm living in another world.
So many people but all I really want is you.
Nothing I can do, because I'm miles away from you.

And every song I'm singing, know I've got you on my
mind.
And you're the last thing in my head before I sleep at
night.
I'm too far from where you are, we're too far, we're too
far away.
Too far away, too far away, far away-ay.

Too far away, too far away, far away-ay. Ohh.
