I can see what you're trying to do
Too bad I'm not that easily fooled
And after all we've been through
I thought I meant more to you

Give me something honey
I'm so confused

It's not you
It's not me
So tell me what am I supposed to believe
Without you
I can't breathe
It's impossible for me to feel anything
Please
Don't leave

I keep waiting for you but you never show
And there's so much about me you'll never
know
When it all comes down to honesty
Well honestly
I never thought I'd see you go

It's too much to handle and now
I'm alone

It's not you
It's not me
So tell me what am I supposed to believe
Without you
I can't breathe
It's impossible for me to feel anything
Please
Don't leave

You were never there
You never cared
I'm sick of pretending
You were never there
Why do I care

It's not you
It's not me
I guess you'll have to learn to live without me

It's not you
It's not me
I guess you'll have to learn to live without me
Without you
I'm free
You make moving on so easy

It's not you
It's not me
I guess you'll have to learn to live without me
Without you
I'm free
You make moving on so easy
Please
Let me be
