Stop tonight before the downpour  
The city dam will break and flood the town  
That we sleep in  
And we'll all drown, and we'll all drown

I know that everything good was intended  
But now it's obvious all of these tragedies reign  
The spoken words of the faint

That's what we sing  
Are we dreaming  
No doubt you've heard of overkill  
That's what we sing  
Are we dreaming  
No doubt you've heard of overkill

Stop tonight before the downpour  
The city dam will break and flood the town  
That we sleep in  
And we'll all drown, and we'll all drown

Just trust you don't want the blood on your hands  
Are we dreaming  
This must mean that we're reaching the end  
Are we dreaming

Our last dance  
My darling

Stop tonight before the downpour  
The city dam will break and flood the town  
That we sleep in  
And we'll all drown, and we'll all drown

And we'll all drown tonight  
And we'll all drown

Stop tonight  
Stop tonight

Stop tonight before the downpour  
The city dam will break and flood the town

That we sleep in  
And we'll all drown, and we'll all drown

Stop now  
Stop tonight before the downpour

I know that everything good was intended  
But now all of these tragedies reign  
The spoken words of the faint

(That's what we sing  
Are we dreaming  
No doubt you've heard of overkill  
That's what we sing  
Are we dreaming  
No doubt you've heard of overkill)

Stop tonight before the downpour  
Can you hear us now  
Stop tonight before the downpour  
Can you hear us now

Hear us now  
(Our last dance  
My darling)
