The next best kiss
Come on baby
Tell me it's better than this

This can't be as good as it gets
Let's try and focus on the times we forget

Is this euthinasic
End all that's left
This feels a lot more sinister than I thought to expect

The next best kiss
Come on baby
Tell me it's better than this

Here lies the abomination of love
You and me
Our adoration for lust

Is this euthinasic
End all that's left
This feels a lot more sinister than I thought to expect

So let's take our time because
In about awhile, this will be the last time

The next best kiss
Come on baby
Tell me it's better than this

Come on baby
Tell me it's better than this

Here lies the abomination of love
Here lies the abomination of love

The next best kiss
Come on baby
Tell me it's better than this

Come on baby
Tell me it's better than this

The next best kiss
(The next best kiss)
Come on baby
Tell me it's better than this

Come on baby
Tell me it's better than this
