"Say All You Want"

Visit "[Say All You Want](#)" on MotoLyrics.com

I'll bite my tongue
And keep my feelings to myself
Well I'm holding on
But I can't last much longer
I can't be stronger
While I'm sitting here burning in hell

But you'll say
But you'll say
You'll still say all you want

You want it to end now
But we should've stopped before we started
Na na na na no
Cause all the water in the ocean
Could never ever tear us apart
So says my

You want me to get out
But we should've never got that
La la la la la low
Cause all the water in the ocean
Could never ever tear us apart
So says my heart

A tainted smile
Can bide my time and patronize me for a little while

The passions die
But only in your own eye
I lied
I never want you better
Not never with another
Ever get the feeling I might not be alright

But you'll say
But you'll say
You'll still say all you want

You want it to end now
But we should've stopped before we started
Na na na na no

Cause all the water in the ocean
Could never ever tear us apart
So says my

You want me to get out
But we shouldâ€™ve never got that
La la la la la low
Cause all the water in the ocean
Could never ever tear us apart
So says my heart

Why is it so hard
In this war that I know will never end
And what did I do to make you
Want to go
Want to go
Want to go that far

You want it to end now
But we shouldâ€™ve stopped before we started
Na na na na no
Cause all the water in the ocean
Could never ever tear us apart
So says my

You want me to get out
But we shouldâ€™ve never got that
La la la la la low
Cause all the water in the ocean
Could never ever tear us apart
So says my heart

You want it to end now
But we shouldâ€™ve stopped before we started
Na na na na no
Cause all the water in the ocean
Could never ever tear us apart
So says my heart

So says my heart
So says my heart
