"Without You"

Visit "[Without You](#)" on MotoLyrics.com

[1.Verse]

I never thought letting go of your love is a whole and
taking total me
and you say "Goodbye", girl I swear that one word was
the worst thing you could do to me
and you never knew that my pride could be the reason
why I can stop the grieving from you

[Chorus]

So baby one more chance, so I can show you that
I can't seem to live without you
I just can't see me living without you baby (ain't no way
I'm letting you go)
You best believe I'm here to stay baby (I'm right here
and I'm taking control)
Little bit of you, little bit of me, whole letta us makes it
whole (ain't no way I'm letting you go)
Litte bit of trust, little bit of hope, there's a must just for
us (I'm standing and I'm taking control)

[2.Verse]

Heaven only knows which way my heart flows, now I
can be a better man
I say to you "This is my world, you never feel that hurt
again"
Tell me baby can we try? Don't you worry Darling got it
figured out

[Chorus]

Baby one more chance, so I can show you that
I can't seem to live without you
I just can't see me living without you baby (ain't no way
I'm letting you go)
You best believe I'm here to stay baby (I'm right here
and I'm taking control)
Little bit of you, little bit of me, whole letta us makes it
whole (ain't no way I'm letting you go)

Little bit of trust, little bit of hope, there's a must just for us (I'm standing and I'm taking control)

[Hook]

I can't see myself living without you (baby I just can't see)

I can't see myself living without you (I don't wanna leave ya baby)

I can't see myself living without you (I can't think about you babe)

I can't see myself living without you (Ooh I ooh)

[Chorus]

I just can't see me living without you baby (ain't no way I'm letting you go)

You best believe I'm here to stay baby (I'm right here and I'm taking control)

Little bit of you, little bit of me, whole lotta us makes it whole (ain't no way I'm letting you go)

Little bit of trust, little bit of hope, there's a must just for us (I just can't seem to let you go)

I just can't see me living without you baby (ain't no way I'm letting you go)

You best believe I'm here to stay baby (I'm right here and I'm taking control)

Little bit of you, little bit of me, whole lotta us makes it whole (ain't no way I'm letting you go)

Little bit of trust, little bit of hope, there's a must just for us (I'm standing and I'm taking control)

Oh oh yeah....

[Fade out]
