"Lively Up Your Monday"

Visit "[Lively Up Your Monday](#)" on MotoLyrics.com

You've got firecrackers in your eyes
And your ego's almost oversized
Take the wheel and drive me to your thrills
On the rollercoaster you're almost there
Still life can take you anywhere
But stay away from crazy pills

Something's gotta hold on you
Don't let it go, live it through
So come on shake you're ass
If that is all you do

Lively up your Monday
Cast away 'til Sunday
Keep on living like you're dying
(We've got something)
Money just can't buy you love
So don't push and shove
Cause we've got something good

Turn the heat up stranger
Don't be a dog in the manger
My mother said it was unfit
And if someone thinks you radiate
Just tell 'em you don't medicate
And then have a go at it

Well I am not a preacher
With a social double feature
So come on raise your hands
And lay your love on me

Lively up your Monday
Cast away 'til Sunday
Keep on living like you're dying
(We've got something)
Money just can't buy you love
So don't push and shove
Cause we've got
We've got something good

If you got something to say
Just get it out of the way
That's always been my top
Priority philosophy, yeah
Don't be a drag on yourself
Cause life's a beautiful thing

Lively up your Monday
Cast away 'til Sunday
Keep on living like you're dying
(Living like you're dying)
Money just can't buy you love
So don't push and shove
(We've got something good)

Lively up your Monday
Cast away 'til Sunday
Keep on living like you're dying
(We've got something)
Money just can't buy you love
So don't push and shove
Cause we've got
We've got something good

(We've got something)
(We've got something)
Keep on living like you're dying
(We've got something) oohh
(We've got something)
Something good
(Something good)
Money just can't buy you love
So don't push and shove
Cause we've got (we've got)
We've got something good
