Come on, Mytown, Yeah, Can you feel me?

Get down, get on and make some noise
Gonna get down with the Mytown boys
Gonna get you in the mood to party all night
Get down, get on let down your hair
There's people dancing everywhere
Gonna get you in the mood to party all night

Here comes the weekend once again
Jump in the car and tell your friends
Checking out some grooves on the way
Because tonight is the night
Everything's gonna be alright
Honey's jumping 'cos you've just got paid
Friday night is coming-yeah
And things will be all right
Hey DJ let the record spin
Everybody get up and shake that thing
Let the music take you over
So get down with the town
You know we don't stop
When the sun goes down

Bring it on down to the floor
It's time to rip this up once more
Saturday night is coming
And things will be all right

Everybody knows that the boys have got the feeling
Everybody knows that the boys will be around

C'mon, Mytown, Jack Knight, Yeah
Jack Knight in Dakota House
One more time, can we make you bounce?
Said all these things girls gonna turn me out
And the party won't stop 'til they burn me out

Jack Knight in Dakota House
One more time, can we make you bounce?
These Mytown boys gonna turn me out
And the party won't stop 'til they burn you out

Everybody knows that the boys have got the feeling
Everybody knows that the boys will be around
