(Refrain)

I gotta knocked out rhythm, gonna swing away all my
blue

I gotta knocked out rhythm, gonna swing away all my
blue

If you don't want me baby, then that's what I'm gonna
do

When the sun goes low, you can't be found
I bet you got a million other boyfriends around
You said you were mine, oh that were just a line
You broke your vow, it's over now, I'm leavin' this time

Goodbye heartache, I won't be back this way

(repeat refrain)

(ah, knock it out)

[Interlude]

Well standin' in the rain, waitin' for my train
My heart feels like it's breakin', but I'm leavin' just the
same

You had your way, now I git my way
I'm leavin' this here town, lookin' for better days

Goodbye sweet gal, I ain't comin' back no more

(repeat refrain)

[2nd Interlude]

(repeat refrain)

Yodal lay ee, yodal oh, yodal eh
