"Lord Take My Pain"

last night i dreamed about you
that you came home to me
never more to roam dear
and i was so happy and then i cried
when i woke and found you gone lord take my pain
my hearts been broke too long

ever sense you left me
i cant control my tears
you said that you were mine to stay but you quit lovin
me dear
and now its time
i layed awake till dawn lord take my pain
my hearts been broke too long

i hope your heart stays happy
and that your soul stays free
but if you ever need a friend
you can always count on me good bye till then
its time to travel on lord take my pain
my hearts been broke too long
