Close your eyes and count to ten
I'll be there when you open them

Close your eyes and count two three
Can you see mountains
Can you see trees
Can you see everything
that matters to me

Listen hard cant you hear it fall
Us lucky lovers we get it all
No inhibitions and no regrets
I think this might be our best loving yet
And not a night you will want to forget

Cos I wanna show you things of beauty
I wanna share your pain
All in good time but right now
Lets do it in the
Rain

Cos I've
been holding it down
Getting high on a feeling
About you and me going outside
Getting soaked to the skin
Falling out of the jeans that we live in
Cos I know even now
Before it's done
This evening will be
Our favorite one
Everything feels so right
Two shadows moving in moonlight
Maybe the stars
wanna watch us tonight

Cos I wanna show you things of beauty
I wanna feel your pain
All in good time but right now
Lets do it in the rain

Cos I've been holding it down

Getting high on a feeling
Of you and me going outside
Getting soaked to the skin
Falling out of the jeans that we live in

You and me
And the stars in the Ground
So tonight if its alright
I hope it rains
