Never know I'd find someone so special to me
Girl I can't describe the feeling that you give to me
Take you around the world, show you're my favorite
girl
This feeling it ain't never gonna change baby

You're all I think about, baby I wanna shout
You're the only women that I ever dream about
Wanna settle down, never wanna frown
Make me feel like a real man baby

Girl I promise you
I'll be all I can be, you're each and every thing lady
This I promise you
I'll be the one who comes when no one else is there
lady
Woman I promise you
I'll be more than a man, the one who understands you
baby
All these things I say to you
Baby girl I promise

Baby you know you had the key to my heart
Together you and me together a future we will start
So come around me girl let me love you

And baby I can be with you the rest of my days
Until we grow old and gray
So come to me I just wanna love you
Place no one above you

Girl I promise you
I'll be all I can be, you're each and every thing lady
This I promise you
I'll be the one who comes when no one else is there
lady
Woman I promise you
I'll be more than a man, the one who understands you
baby
All these things I say to you
Baby girl I promise

Baby want you stay with me a little while

Girl I promise you

I'll be all I can be, you're each and every thing lady

This I promise you

I'll be the one who comes when no one else is there

lady

Woman I promise you

I'll be more than a man, the one who understands you

baby

All these things I say to you

Baby girl I promise
