Sun is shining on my head, but it's a rainy day  
I'm just walking around and I got nothing to say  
I feel so weird but I'm not even drunk  
Everybody looks great, everybody but

[Chorus]

Nobody knows what's inside my head  
Inside my head, you're all dead!  
Nobody knows what's inside my head  
Inside my head, I wish you were dead!

All these kids act cool, they call me a nerd  
But it's my lucky day, today I can't get hurt  
They spit me in my face, yeah, the joke is on me  
Please, do it again, I don't mind because

[Chorus]

This naggin' it still continues, it just won't stop  
So I keep on smiling, until they drop  
My eyes wide open, head up in the air  
Everybody looks great, everybody but

[Chorus]

There will be a day, I'm sure that time will come  
No goddamn bully has the guts, to call me dumb  
All these kids will fear me, they'll act as I will  
Get them on their knees, this is my game
