

HeyHiHello! "Eleven Eleven"

It's eleven eleven
make a wish and say
I hope you come true

1, 2, 3, 4
soon as you walk through the door
counting 5, 6, 7, 8, 9
one million thoughts quick hit my mind
have you been running?
where have you been lately
you know it drives me crazy
you know i miss your kiss
i hate to let you see me like this

because i know that when she's on my mind
she's got me all worked up inside
and i know it's going down tonight
because she's moving and it's feeling right
and i know that you've been hating me
let the things i said be history
you can move like that
i can move like this
girl, you know it's time to make a wish

8, 7, 6, to the 5
i'll be singing your song and i'll sing it all night
4, 3, 2, 1
i don't want to be singing alone
you are the perfect melody
but now my harmony is feeling out of key
and i just want to feel your love again
why don't you say that we're more than friends?

Because you're everything I'm looking for
I know, cause I'm not looking anymore
And I'm so lucky with the love I've found
make a wish until tomorrow comes around
