"Blind Me"

When I was most in need of
something, you were there.
And when I said I needed nothing, you
didn't care, you were still there
You shine...just like the sun
And you blind me...to everyone
And you are the one
Be my eyes when I am blind
Catch my fall just in time
When everything is going wrong
Well, you and I will carry on
We sit in silence now and we think back
upon the day we met
There is not really that much older than
this life will let us get
But you still shine---just like the sun
And you blind me---to everyone
And you are the one
