"Healing Power Of Love"

Do you believe in the healing power of love, or is it just
a fantasy?

Do you believe in the power from above? I feel it
between you and me.

And I don't have to look in your eyes to know
There's something going on here that's out of our
control

This is happening too fast for us to fight.

There's a healing power (healing power) deep in all of
us.

In the darkest hour (darkest hour) we can still rise up
(still rise up).

There's a new horizon shining between you and me.
When you slip your hand in mine, I feel the rub of the
healing power of love.
(healing power)

And we got nothing but love to pull us through,
Love and compassion (ooh, love and compassion),
But in this desperation world nothing else will do.
Oh, we can make it happen (only we can make it
happen).

And you don't have to say a word, I understand (I am
yours only).

When you lay down, your love lasts forever (waiting
forever).

You will always be my woman, and I will be your man.

There's a healing power (healing power) deep in all of
us.

In the darkest hour (darkest hour) we can still rise up
(still rise up).

There's a new horizon shining between you and me.
When you slip your hand in mine, I feel the rush of the
healing power of love.

Deep in the night, when we're so alone, I swear I feel
the power that's
greater than our own.

And how a love unfolds as we tumble through the

darkness to the great unknown.

There's a healing power (there's a healing power) deep
in all of us.

In the darkest hour (darkest hour) we can still rise up
(still rise up).

There's a new horizon shining between you and me.
When you slip your hand in mine, I feel the rub of the
healing power of love.

There's a healing power (there's a healing power), it's
so deep in us.

In the darkest hour (the darkest hour) there's a healing
power of love.

There's a healing power (there's a healing), I can feel it
now.

In the darkest hour (the darkest hour) we can still rise
up (still rise up).

There's a healing power (there's a healing power) deep
in all of us.

In the darkest hour (darkest hour) we can still rise up
(still rise up).
