OhhhÃ¢â€Œ!

This could get good

This could get crazy baby

This could get bad

Downright ugly honey

Way out of hand

Well it's a full moon at half past 8

And the cowboys have just got paid

And some hilljack fan is on the stage

Turn it up

And the parking lot is nothing but

Mud and muck and pick-up trucks

And wild women that just wanna get fired up

Oh yeah

(this could get good)

This could get crazy baby

This could get bad

Downright ugly honey

Way out of hand

Might make the morning grapevine

All over town

Don't wanna miss a single minute of it

You'll wanna stick around

This could get good (this could get good)

This could get good (this could get good)

This could get real real real real good

Well the place is fillin up to fast

And the fire marshal has come to cash

And drives off in his red Cadillac at show time mmm

hmmm

But the lights come on

And the band kicks off

And their linin up rows of moonshine shots

They'll be twirlin skirts on table tops in no time

And in no time

(This could get good)

This could get crazy baby

This could get bad

But I'm thinking when this night gets through
