I left the town of the praying mantis
And built a cabin up there on the hills
Under the sun
Ready to rebirth

One step close to falling
One step close to falling down
I'm no superman

But the mantis struck back every night
So I lifted my gun and fired on sight
Never let go
Or you'll feed her once more

One step close to falling
One step close to falling down
I'm no superman

I got high
I got low
I got tired of the ebb and flow

One step close to falling
One step close to falling down
I'm no superman

I'm no f***ing... I'm no f***ing superman
