I'd better suffer it, than to live under your choice and  
moves

Could that be evolution? Could that be evolution?

Prey hunting prey for fun

You motherf\*\*\*\*\*!

Don't mess with my patience, or I'll f\*\*\* you back

Pack your s\*\*\* up, or get the f\*\*\* out

Don't mess with my patience, or I'll f\*\*\* you back

I'll keep up with the tide, as you're not there to slow me  
down

Don't mess with my patience, or I'll f\*\*\* you back

Pack your s\*\*\* up, or get the f\*\*\* out

Don't mess with my patience, or I'll f\*\*\* you back

The two of us, should never have met

Now my best days are behind me

The two of us, should never have met

The future belongs to heartless whores
