Pills don't seem to kill the pain  
I'm just a voice without a name  
We're so far gone now  
So far gone

I don't need to hear you speak  
Your empty words don't mean a thing  
I can't hate you if I can't love you

Today is just another day  
Today is just another disappointment  
Shut my mouth and close my eyes  
I don't need a reason why  
Today is just another day

A tragedy

In life, in death, in hate I'll find  
Theres nothing left to leave behind  
I can't hate you if I can't love you

Today is just another day  
Today is just another disappointment  
Shut my mouth and close my eyes

I don't need a reason why  
Today is just another day

When did my heart stop beating  
Why do I wake up screaming  
When I've got nothing left to lose  
Have all the rules been broken  
Have all the words been spoken  
Or are we giving up too soon  
We're so far gone now  
So far gone

Pills don't seem to kill the pain  
I'm just a voice without a name

Today is just another day  
Today is just another disappointment

Imma shut my mouth and close my eyes  
I don't need a reason why  
Today is just another day

Oh! Today is just another day

A tragedy
