Wishing
that I could see you everyday
wishing
that I could steal your heart away

dreaming
of the times I could hold you tight
wishing
that the time would come tonight

I'd been hoping all along
that things would turn out right
If I could find the wishing star
then I would spend the night

Wishing
that I could see you everyday
wishing
that I could steal your heart away

[bridge]

I'd been hoping all along
that things would turn out right
If I could find the wishing star
then I would spend the night

Wishing
that I could see you everyday
wishing
that I could steal your heart away
