i have never loved anyone as much as i do  
never been so inlove before  
and now its all coming to an abrupt end  
it happened all oh so fast  
(oh its so sad)after all this time weve spent together  
its time to say

byebye,byebye and though it isnt easy for me  
to watch you walk out the door  
so hard for me to see you slipping away  
i know its for the very best and  
yes i do love you baby forever and always in my heart  
byebye,byebye

im laying awake in my bed i look around the room  
and all i see are these photographs of you and me  
its so hard to look at you right now

knowing that you are a million miles away

byebye,byebye and though it isnt easy for me  
to watch you walk out the door  
so hard for me to see you slipping away  
i know its for the very best and  
yes i do love you baby forever and always in my heart  
byebye,byebye

i hope that someday soon fate leads you back to my  
door  
i hope that well meet again somewhere someplace  
somehow

and when we meet we can tell each other all
