when your young  
your parents tell you no matter what happens  
dont give in to the fears that try to tear you down  
they tell you that they love you  
and to believe in yourself  
your mother says just hold on hang in there

because i just know that your going to be a star  
(your going to be a star)  
i just know  
i just know  
and your daddy calls you his little angel  
he says you were sent from heaven above  
that you are the apple of his eyes  
and i begin to cry these happy tears

i never thought id hear them say that  
and i can see clearly now  
that they love me and  
they want whats best for me  
i can see clearly now  
that love really does conquer all  
(love conquers all)  
(love conquers all) and that i am not alone  
now i am right here i stand tall  
my head held high

this is how its meant to be forever and always  
never second guessing never second thinking  
i never have to worry about a thing  
cause our lives are in gods hands

no matter what happens just believe  
and you will recieve all your hearts desires

i never thought id hear them say that  
and i can see clearly now  
that they love me and  
they want whats best for me  
i can see clearly now  
that love really does conquer all  
(love conquers all)

(love conquers all) and that i am not alone  
now i am right here i stand tall  
my head held high

ive had my ups and my downs  
my highs and my lows  
ive been through the fire and through the rain  
ive even cried alot of tears  
faced all my fears head on  
head first i jumped into the waters below

been through the raging storms of life  
just to get right here  
but i know i was never alone  
mommy you always made sure i knew  
just how much you love me  
you always said i was going to be a shining star  
and i believed you  
everything that you said was the truth

and now...  
i never thought id hear them say that  
and i can see clearly now  
that they love me and  
they want whats best for me  
i can see clearly now  
that love really does conquer all  
(love conquers all)  
(love conquers all) and that i am not alone  
now i am right here i stand tall  
my head held high

thanks for staying by my side  
and for watching me grow  
even when i was wrong  
even when things got tough  
thanks for all that you have done for me  
cause i am blessed to have you in my life

i never thought id hear them say that  
and i can see clearly now  
that they love me and  
they want whats best for me  
i can see clearly now  
that love really does conquer all  
(love conquers all)  
(love conquers all) and that i am not alone  
now i am right here i stand tall  
my head held high

i never thought id hear them say that

and i can see clearly now  
that they love me and  
they want whats best for me  
i can see clearly now  
that love really does conquer all  
(love conquers all)  
(love conquers all) and that i am not alone  
now i am right here i stand tall  
my head held high

you held my hand through it all  
you never let out love slip away  
and i am so grateful that i have you in my life  
cause of you  
i am who i am and where i am  
because of your unfailing  
your unselfish love for me

i will always know who i truly am  
and where i came from  
and i will always hold you close to me  
and i will never let you go  
no no no  
you are always in my heart forevermore

i will cherish all that we share together  
i will love you forever  
forever i will love you forever  
forever i will love you forever forever forever

cuz i never thought id hear them say that  
and i can see clearly now  
that they love me and  
they want whats best for me  
i can see clearly now  
that love really does conquer all  
(love conquers all)  
(love conquers all) and that i am not alone  
now i am right here i stand tall  
my head held high
