I am a tear,I've been here before  
I know her perfumed fingers  
I know the cold,cold floor  
You look as if you don't  
Understand me at all  
When she can't help herself  
It's my job to fall

I could tell you stories  
That you would not believe  
No,I am not the first  
There've been millions of me  
Every time you leave her,every time you don't talk  
She fights the weakness in her knees  
But it's my job to fall

Oh,it's my job to help her  
Through the long and lonely night  
To lead her into sleep  
When she give out with the fight  
Her heart's out of control,you always make it crawl  
But I serve the lover  
It's my job to fall

Love comes from the heart  
But I come from the soul  
Love always shows its card  
But I wait until you go  
But tonight her soul cried out for you  
And I had to back the call  
You never should have seen me  
But it's my job to fall

Oh,it's my job to help her  
Through the long and lonely night  
To lead her into sleep  
When she give out with the fight  
Her heart's out of control,you always make it crawl  
But I serve the lover  
It's my job to fall

I am a tear,I've been here before

I know her perfumed fingers  
I know the cold,cold floor
