Every mountain I had to climb  
Every river I had to swim  
Every desert that I crossed  
Brought me one step closer to him  
And this incredible love we're in

It's unlike anything I ever imagined  
And just like everything I've ever dreamed of  
This man,this life,this love  
This man,this life,this love

I thought love was a fairy tale  
Waiting on my prince to come  
Tried on slippers but nothing fit  
Make believe's no comparison  
To the reality of this love  
It's unlike anything I ever imagined  
And just like everything I've ever dreamed of  
This man,this life,this love  
This man,this life,this love

It's unlike anything I ever imagined  
And just like everything I've ever dreamed of  
This man,this life,this love  
This man,this life,this love

This love
