I didn't do anything today
Lazyhead
I didn't do anything today
Stay in bed
I'm finally doing what i said i'd never do
I'm doing nothing
I'm doing it for you
And you will admire the ultimate courage
When i throw everything right in the garbage for you
I didn't say anything today
Nothing said
I didn't think anything today

Emptyhead
I'm finally doing what i said i'd never do
I'm saying nothing
I'm saying it at you
And i will get helpers i'm recruiting them now
I'll show them nothing to do i will show them how
And we will do nothing
We'll do it together
I don't care when we get through
We'll do it forever for you
