If you were here
Baby we'd increase the dose
There was no fear in my room
When we got close
Call me anytime
You've got a ghost
And you're the only person in the world
I feel that way about
And if you move off to the side
I'll get swept back out

Where it's cold but not that deep
Coz your legs grow
There's a light that rises up
From the bottom of the lake
And its beam has hit me hard
Now I'm wide awake
Where it's cold but not that deep
Coz your legs grow
