I'm going from strange to stranger
Every year
It's going from strange to stranger
Every year

I take it back
You're panicking
I take it back
I just don't know
I really thought I wanted to go
But when you're close
You look through me just like a ghost
I like sleeping
I'm only safe when I'm dreaming

I need a new heart
This one's hollow always scheming
You wait for summer
And then you wait for winter
But there's a total lack of splendor

Zen brain
Throw away your crushes
All your childhood crutches away
Super brain
Never scared of nothing
Violence or loving my way
