You said we'd keep this pact forever/ A polite way of
laying your curse from the start
you had your hands inside my pockets/ taking away
everything I own
I'll get my mind straight, get my mind straight
I'll get my mind straight, get my mind straight
I'll get my mind straight, get my mind straight over you

Stick around/ Make it right/ I'm giving up a pointless
fight
So cut your cards and play your hand honestly
Stick around/ Make it right/ I'm giving up a pointless
fight
So cut your cards and play your hand honestly

Nine out of ten times you said you loved me,
But I smoked you out, I called your bluff
You thought your little secrets saved you,
But they killed your game and you fell apart

I'll get my mind straight, get my mind straight
I'll get my mind straight, get my mind straight
I'll get my mind straight, get my mind straight over you

Stick around/ Make it right/ I'm giving up a pointless
fight
So cut your cards and play your hand honestly
Stick around/ Make it right/ I'm giving up a pointless
fight
So cut your cards and play your hand honestly

Stick around/ Make it right/ I'm giving up a pointless
fight
So cut your cards and play your hand honestly
Stick around/ Make it right/ I'm giving up a pointless
fight
So cut your cards and play your hand honestly
