Dot all your I's cross your T's  
And send your letter off to me  
'Cause it's getting colder, we're getting older  
And you keep trying to leave  
So build up that guard against me,  
You're tougher than nails and won't see  
That I've been a good kid, patient and honest  
And I'm just trying to breathe

I can't take the way you take away from me  
It's three steps forward, ten steps back to meet

I can't change, change a single thing about me  
Yeah, even if I get lonely, you'll never own me  
I'll stay the same me  
This bull rides tonight

Your cons are outweighing the pros  
Your'e debating the things that you know  
I wasn't your best bet, but don't you regret this  
Don't leave me high when I go

I can't take the way you take away from me  
It's three steps forward, ten steps back to me

I can't change, change a single thing about me  
Yeah, even if I get lonely, you'll never own me  
I'll stay the same me  
This bull rides tonight  
Your friends say that you should just run  
We're holding our ground 'til we're done  
Some dark sick obsession, with life's cold hard lessons  
Why can't I just give up, Why can't I just give up  
Why can't I just?  
Change, Change everything about me  
Yeah, even if I get lonely, you'll never own me  
I'll stay the same me  
This bull rides tonight  
I must change, change everything about me  
Yeah, even if I get lonely, you'll never own me  
I'll stay the same me  
This bull rides tonight
