When you're away I feel I'm empty
I lose my mind
But when you're around I take for granted
Most of our time

Honey you say that I'm cold
And sometimes I'm out of control
Baby you know how I am, at the end
You were always my man

I don't mean to, when I hurt you
But I need you, I assure you
Just let me be, when I'm crazy
At the end you're, still my only

At the end, at the end, at the end

Right when you're gone I really miss you
You got my heart
But when you come back I just won't kiss you
And it tears you apart

Honey, I do make mistakes
Believe me, it's better this way
Baby, I'm true and I'm real
I'm giving you all that I feel

Repeat Chorus

Sweetie I'm trying my best
To give you the most and no less
Darling I'm true and I'm real
I'm giving you all that I feel

Repeat Chorus
