Call my name now

Baby I
I want you so
I crave your touch
I want you close

Every time
You come to mind
My tender heart
Just melts inside

I can't resist
Those thirsty lips
My eyes can't take
That look you give

I'm calling for you
I hope you know
I fiend for you
Every time you go

Call my name now
Call my name now
Call my name now
Call my name now

Call my name now
Call my name now
Call my name now
Call my name now

Honey you
Just have a way
To give me pleasure
And forget my cares
So come to me
Don't worry love
I won't lie to you
I can't get enough

You make cry
When you're inside
My heart and soul
Is yours for life
Just don't let go
You got me hooked
You give me shivers
When you take control

Take control
Take control
Take control
Take control

(Call my name now)
Take control
(Call my name now)
Take control
(Call my name now)
Take control
(Call my name now)

Call my name now
Call my name now
Call my name now
Call my name now

Call my name now
Call my name now
Call my name now
Call my name now
Call my name now
Call my name now
Call my name now
