I know you don't believe me
When I say "it's gonna be all right"
I know you're tired of trying
When you feel your soul is dying inside

But you can count on me
I'm here for you
You can lean on me
Believe it's true

You know that I try, I try
I try to make you feel alright
You'll find, you'll find
You'll find me in the middle of the night
I am yours to love

Every word escapes me
When I think of all the things I've lost
Everywhere my head turns
It's a dead end road I'm on

But you can count on me
I'm here for you
You can lean on me
Believe it's true

You know that I try, I try
I try to make you feel alright
You'll find, you'll find
You'll find me in the middle of the night
I am yours to love

I'm, I am yours to love
I'm yours to love, yours to love
I'm
