You still pretend like make believe  
Like you have some cure for this disease  
You play the part, I'll take the lead  
Suffocation, I can't breathe

You show me out across the way  
And we'll collide another day  
What's the use is what they say  
I can't be pleased so I'm afraid  
So don't be late  
Because the positive side of me never really stays for  
long  
Oh, just don't complain  
'Cause when the sun comes outta me it never wants to  
play

15 years is quite a lot  
(?) is all I've got  
Come fly with me on top of trees  
My fix is in, I'm happy and free

What's the use, you're in my blood  
You are the drug I can't give up  
You be the needle I'll be the vein  
Drive it through and I can't complain

You show me out across the way  
And we collide another day  
What's the use is what they say  
I can't be pleased so I'm afraid  
So don't be late  
Because the positive side of me never really stays for  
long  
Oh, just don't complain  
'Cause when the sun comes outta me it never wants to  
play

My shining star  
Oh, my guitar  
Which one to choose, I must be smart  
A feeling races to my heart

Love you darling, don't you start  
Humner, humner's on the kill  
Ollie Thompson's, popped that pill  
Wasted girls, they sleepin' still  
Past out on the counter till

Oh and the needle comes in, the needle comes out  
Just like the teacup and the spout  
The needle comes in, the needle goes out  
Just like the teacup and the spout

What's the use, you're in my blood  
You are the drug I can't give up  
You be the needle I'll be the vein  
Drive it through and I can't complain
