'Cause all that I ask for is turning to ashes  
When everything comes down  
There's nothing to die for, there's nothing to die for

'Cause I'm burying my sins  
I'm a prisoner in waiting  
I'm drowning within  
When the world is all I'm hating

This is my hell  
We conform from underground  
We arise from your defenses  
Through this constitution, revolution end

'Cause all that I ask for is turning to ashes  
When all of my passion crumbles around me  
I'm stripping again to all that surrounds me  
When everything comes down, there's nothing to die  
for

If I cannot be saved  
Then my pride is for the taking  
If this is my grave  
I will close my eyes awaking

Everything's red  
We conform from underground  
We arise from your defenses  
Through this constitution revolution end

'Cause all that I ask for is turning to ashes  
When all of my passion crumbles around me  
I'm stripping again to all that surrounds me  
When everything comes down

'Cause all that I ask for is turning to ashes  
When all of my passion crumbles around me  
I'm stripping again to all that surrounds me  
When everything comes down, there's nothing to die  
for

Pero mi pais

Todo por mi pais  
Todo por mi pais  
Todo por mi pais

'Cause all that I ask for is turning to ashes  
When all of my passion crumbles around me  
I'm stripping again to all that surrounds me  
When everything comes down, there's nothing to die  
for

There's nothing to die for, there's nothing to die for  
There's nothing to die for, there's nothing to die for  
When everything comes down

'Cause all that I ask for is turning to ashes  
When all of my passion crumbles around me  
I'm stripping again to all that surrounds me  
When everything comes down, there's nothing to die  
for
