This is my time, this is my time  
And now you'll go back where you came from

Now is the time to accept, I'm right  
Was right  
Por ser lo mas provocar was wrong  
Was wrong

Everything's over and I feel sober  
To start my life  
That one step took me right there

True intentions are not predisposed to our fear  
Searching without a cause

I will not stand here and be controlled  
Inside  
Lo necesito sin tu control  
I'm not fine

Siento en me vena ninguna pena  
Without a fear  
A take that one step right there

True intentions are not predisposed to our fear  
Searching without a cause

Like a game of chess I carved your chest  
Don't snap back, pull the trigger into my neck  
Bust your move, drop the news  
It's a crying shame I'm feeling all the pain

And you want to slap my face  
You'll try to put me in your place  
Well, I'll step back and then attack  
This is my time to get my life back

True intentions are not predisposed to our fear  
Searching without a cause
