Midnight scratch crawlin' on my skin.  
Tonight my minds wrapped in this.  
I thought that I was dreaming  
Until I heard myself screaming.

& I'll always be chasing that part of me

Good Night, Goodbye.  
Wish I never tried.  
Good luck, So Long.  
You're the sadness in my song.  
I need another chance tonight.  
It aint as simple as goodbye.

Wake up missing the taste of your kiss.  
My heart is consumed by this.  
I never saw you leaving  
Until I saw that you were gone.

L-l-lay it down. P-p-put me to sleep. I G-g-gave you my  
heart. You gave it back to me. (x2)
