Just to know that I
Will see you today
Makes me wake up early
just to see your face
makes that bus ride to school
seem A-O-K
girl i've never felt this way
i've never been in love

(all)
i've never been in love
and everytime i see you
girl my heart beats are real

(girl)
so if roses are red
and violts are blue

(boy)
girl what im trying to say is that
i think that im in love with you

Roses are red
violts are blue
girl
im not sure but i think
im in love with you
with you
thats right..thats right
im not really sure
but i think that im in love with you

Its kind of strange to me
now i know what to say
until i see ur face
and in my mind just goes blank
the butterflies then come
and then my knees get weak
girl i can hardly speak

(girl)

as crazy as it seems
i know whats good to me
sure i can stare at you and
try to pretend

so if roses are red
and violts are blue
girl what i am trying to say
i think that im in love with you

roses are red
violts are blue
girl
im not sure but i think that
im in love with you
with you..
thats right.. thats right
im not really sure, but it think
im in love with you

and everytime i see you
girl
my hear beats are real
so if roses are red
and violts are blue
girl what i am trying to say
i think that im in love with you

roses are red
violts are blue
girl
im not sure but i think that im in love
with you
with you..
thats right...thats right
im not really sure, but i think
im in love with you ..
