I've been down, Down so long
But those days are gone now
I've got the will, I've earned the right
To show you, It's my time tonight

It's my time, It's my time, My moment
I'm not gonna let go of it
My time, It's my time and I'll stand proud
There's nothing I'm afraid of
I'll show you what I'm made of
Show you all it's my time now

I'll break through, I've made my wound
And my faith is strong now
I've got the heart, To reach the height
To show you it's my time tonight

It's my time, It's my time, My moment
I'm not gonna let go of it
My time, It's my time and I'll stand proud
There's nothing I'm afraid of
I'll show you what I'm made of
Show you all it's my time now
I've got the will, I've earned the right

Tonight, Tonight

It's my time, It's my time, My moment
I'm not gonna let go of it
My time, It's my time and I'll stand proud
There's nothing I'm afraid of
I'll show you what I'm made
Show you all it's my time now
Show you all it's my time now
