{Intro Talking }

So like

Like you just sent me a text like

Tryna be like cool

Like we're dope now

Like we're dope

Like we're just gonna be friends

That's the text you just sent me

Just now

{Verse 1 - Jaden}

Im kind of lost now

Been intervening, no meaning

I have no cause now

My heart is bleeding

A tiny bit, I need girls now

Im only pleading that you and me can be awesome

But that's unrealistic

Pain that you inflicted

It's so wicked

Im addicted

Girl the plates have shifted

I ain't tryna get physical

I just, wanna know do you still wear lipstick

Your so encrypted

Your loves my drug, and you got me lifted

Just one night come chill with the MSFTS

Ah, we can just be friends

And we'll hold hands

And dance until the night ends

And I'll run the engine

Don't worry bout vengeance

I'll let you finish all of my sentence-s

You right here, right now

Girl that's a blessing

Just one night we should learn some lessons

Looking so fly, love the that way you dressing

Uh, like this we can get some mo'

Get it poppin like a festival

But the rest should go

I'll spit it you just give me the pace

Can't breathe like Im living in space

Im a kick it with AcE  
Sorry ma, I ain't been in the states  
Cause my life is a chase  
And Im winning the race  
See that you wanted a taste  
Starts here with my hand on your waist  
I don't care what they say  
I wasn't even looking at you  
But they said you here with that dude  
Is that true?  
Hop up in the cab too  
We be running till I catch you  
Don't doubt that  
Wanna raid, we can scout that  
MSFTS we about that  
That's the clique right there  
Lil homie you should shout that  
Going down, reroute that  
We going up right now

{Chorus - Willow}

I, think I, can find you somewhere  
(4x)  
Dance!

{Beat Drops}

{Verse 2 - Jaden}

Uh, Loo-Loo-Lookin for somethin' precious  
All Im seein is toothpicks in dresses  
Well I guess it's  
Time to leave  
Until I get so intrigued  
With somethin I can believe  
It's like, Jesus  
Walked through and putted you in pieces  
What I means is  
It's time to go get us some beezus  
Cause we gon' go to Ibiza and Indonesia  
Wherever I can please ya'  
Girl Im not gonna tease ya'  
We can go up in the trees  
Or the palace like Caesar  
Just tell me where the keys are  
Say cheese  
Ah, I hate takin' pictures  
Im not broke, so you can't fix us  
Im the vicious  
Yes, you'll miss us  
Girls that kiss us  
Rep the Sixers

Uh, MSFTS we soarin  
Here in 4 in the mooring  
Spilt Orange Juice on Ralph Lauren  
All them parties are boring  
Orange Juice is still pouring  
We be wild when we touring  
We killers about insurance  
And what you did isn't important  
We missin up your decor and  
We'll end up right on the floor and  
We're coolin out with guitarin  
We messin up all you chores  
Fix it all in the morning  
MSFTS is in this roaring  
And Willow's kickin the door in  
And AcE is killin them chords  
Cause

{Chorus - Willow}

I, think I, can find you somewhere  
(4x)  
Dance! (Echos)

{Beat Drops}
